Qualifications

University of Hong Kong: MSc in Molecular Biology (2006–2008)

Chinese University of Hong Kong: BSc in Biological Sciences (2002–2006)

University of Hong Kong : PGCE Science (2008–2009)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

For the past 16 years, I've worked as a Biology teacher in prestigious international schools and private tutoring environments. I have supported A-Level and IB students through rigorous coursework, lab work, and exam preparation. My approach combines subject expertise with targeted guidance for competitive examinations.

I've successfully mentored students pursuing degrees in medicine, biotechnology, and environmental sciences, helping them master advanced biological concepts and excel in their studies. My experience spans teaching both small groups and one-to-one tutorials, enabling students to tackle topics like genetics, cell biology, and physiology with confidence.

Over the years, I've worked with diverse learners across Hong Kong, Singapore, and the UK, ensuring they meet and exceed their academic goals. By breaking down complex ideas, I have prepared hundreds of students for IGCSE, GCSE, A-Level, and IB examinations, achieving consistently high results.
